BID PRICING SHEET: ANNUAL BACKFLOW TESTING

Prepared For: Housing Authority of the City of Columbus, Georgia (HACG)
Scope: Annual Testing of Backflow Prevention Assemblies connected to Columbus Water Works (CWW)

Vendor Bidding Instructions:

1. Provide the Unit Price Per Test and Total Price based on estimated or historical quantities (if provided by HACG), or fill out the Unit Rate schedule completely.
2. All unit rates must be all-inclusive (labor, materials, regulatory tags, equipment, vehicles, travel, reporting, and administrative costs).
3. Repairs are strictly excluded from this pricing sheet and must be quoted separately post-inspection.

Fee Schedule By Assembly Size

Device Size	Est. Annual Qty	Unit Price ($) Per Test	Total Extended Price ($)

0.75”	TBD / As Needed	$ _____	$ _____
1”	TBD / As Needed	$ _____	$ _____
1.25”	TBD / As Needed	$ _____	$ _____
1.5”	TBD / As Needed	$ _____	$ _____
2”	TBD / As Needed	$ _____	$ _____
2.5”	TBD / As Needed	$ _____	$ _____
3”	TBD / As Needed	$ _____	$ _____
4”	TBD / As Needed	$ _____	$ _____
6”	TBD / As Needed	$ _____	$ _____
8”	TBD / As Needed	$ _____	$ _____
10”	TBD / As Needed	$ _____	$ _____
14”	TBD / As Needed	$ _____	$ _____

Vendor Acknowledgments & Compliance Sign-Off

By submitting this bid, the Contractor verifies compliance with the following HACG & CWW requirements:

- **Dynamic Assignment & Deadlines:** Acknowledges that work is assigned dynamically throughout the year based on staggered CWW compliance due dates. The contractor will contact HACG Maintenance staff at least twice (2) a month to retrieve the Test Report lists.

• **Retesting Adjustments:** Immediate retests following basic on-site adjustments (e.g., opening/closing shutoff valves) are considered part of the initial test and will not incur extra fees.

• **Workspace Prep & Tags:** Responsible for clearing all standing water, silt, or debris from workspaces prior to testing. Will obtain and twist-tie standard regulatory certification tags securely, and apply highly visible **RED tags** for failed devices.

• **24-Hour Notifications:** Will notify HACG and CWW within 24 hours of any failed test, illegal cross-connection, incorrect installation, or system hazard.

• **Reporting & Submissions:** Will submit accurate electronic PDFs of passed reports to HACG and CWW (smelton@cwwga.org) within 10 days of passing, and strictly at least three (3) working days prior to the official CWW due date.

• **Minimum Qualifications:** Certifies that all technicians hold active Georgia Backflow Prevention Assembly Tester certifications, and that all test kits are GAWP/CWW-approved with up-to-date calibration logs submitted to CWW.
